ALPS Showcase

Friday 16th September 2011

Weetwood Hall, Leeds LS16 5PS

Assessment and Learning in Practice Settings (ALPS) is a multi-award-winning collaborative programme which has been working for the last 6 years to *ensure that students are confident and competent to practise when graduating from health and social care courses.*

This wide-ranging collaboration has involved 5 universities (Leeds, Bradford, Leeds Metropolitan, Huddersfield and York St John), 16 health and social care professions, the Strategic Health Authority and industry. Those involved in the programme have been working on a range of approaches to improve the assessment and learning opportunities and support that are offered to students whilst training in practice.

In October 2010 ALPS set up six networks to build on our work in the areas of **mobile learning**, **e-portfolios**, **competency mapping**, **accessibility & technology use**, **patient & carer voice** and the use of the **Competence in Practice Assessment tool** (CiPA) to support personal development.

At the ALPS Showcase each of the ALPS networks will be **presenting** their work, **sharing** their experiences & the lessons learned and **inviting you to explore the resources** they have developed. The day will be a mix of presentations and hands-on **interactive** workshops. Refreshments and lunch will be provided.

Further details will be announced on the ALPS website (www.alps-cetl.ac.uk) as they become available. Please email alps@leeds.ac.uk now to register and secure your place.

Keynote Speaker

Sharon Oliver

*(Associate Director of Education Commissioning & Workforce Development)
Yorkshire and the Humber Strategic Health Authority*

ALPS Networks

- Accessibility (Disabled Students; Enabled Practitioners)
- Competency Mapping – Patient Safety
- e-Portfolios
- Embedding the Competence in Practice Assessment (CiPA) tool to support personal development
- Mobile Learning and Assessment
- Patient and Carer Voice

Award-winning ALPS

ALPS work has won or been shortlisted for a large number of awards over the years. Come to the Showcase to find out why.

ALPS Resources

Over the last six years ALPS have developed a wide range of tools and resources. At the Showcase we will be launching:

- The Patient Safety Competency Map
- The ALPS CiPA tool to support personal development
- ALPS e-Portfolio case studies
- ALPS Patient Learning Journeys

You will also have the chance to explore:

- ALPS videos
- ALPS mobile apps
- The ALPS assessment tools
